While Valley Clean Energy (VCE) is in charge of procuring the electricity you use
PG&E will continue to provide billing services.

» PG&E will no longer charge you for electric generation. VCE now procures electricity on your behalf.

» PG&E will continue to charge for electric delivery—the transmission and distribution of your electricity – as well as required regulatory and program charges at the same rate for all customers, regardless of the service provider. To learn more about your PG&E energy statement visit pge.com.

» PG&E fees specific to Community Choice Energy Programs are factored into VCE’s rate setting process.

Because PG&E and VCE are working together to provide your electric service, your bill will include charges from both PG&E and VCE, but there will never be any duplicate charges.

The sample bill shown is based on an E-1 rate schedule for a typical residential customer.

1 **Account Number**
You will need this number when upgrading to VCE UltraGreen or opting out of VCE service.

2 **PG&E Delivery Charges**
This is PG&E’s charge to deliver electricity over their existing transmission lines, maintain infrastructure and other fees to support customer service and billing.

3 **VCE Generation Charge**
This charge covers Valley Clean Energy’s cost of purchasing clean electricity for customers.

4 **Total Amount Due**
This is the total amount you pay to PG&E, conveniently on one bill for services provided by both PG&E and VCE.

5 **Your Electric Charges Breakdown**
This is the summary of charges from electric generation, distribution and other fees, taxes and programs that fund regional or statewide programs such as assistance and efficiency rebate programs.
Your Account Summary

Credit Balance on Previous Statement $135.67
Payment(s) Received Since Last Statement -135.67
Previous Unpaid Balance 0.00

Current PG&E Electric Delivery Charges $89.08
Valley Clean Energy Electric Generation Charges $41.95

Total Amount Due by 07/23/2018 $131.03

2016 Vintaged Power Charge Indifference Adjustment

Service Agreement ID

A service agreement documents your particular arrangement with PG&E (including billing days, metering information, and other factors) in order to calculate applicable charges. For customers with multiple meters under a single PG&E account, each meter will have a unique Service Agreement ID number.

Tier Usage

This marker shows the highest tier that you are being charged. If your electric use is more than your Tier 1 Allowance, which is set by state law, and crosses into Tier 2 or higher, the price you pay per kWh will increase.

Generation Credit

This is the generation fee now provided by VCE's generation service, so PG&E credits this charge back to your account to avoid any duplication of generation fees. The credit is what PG&E would have charged you for electricity.

Power Charge Indifference Adjustment

PG&E charges Valley Clean Energy customers a Power Charge Indifference Adjustment (PCIA), which is calculated based on the number of kilowatt-hours used each month. The PCIA is intended to ensure that VCE customers pay the difference between what PG&E paid for power contracted to serve them prior to their switch, and the current market value of that power. The PCIA charge is factored into VCE's rate setting process.

Franchise Fee Surcharge

The Franchise Fee is collected from PG&E to cover costs associated with rights to use public streets to provide gas and electric service. The franchise fee is factored into VCE's rate setting process.

Utility Users Tax

The Utility Users Tax varies from city to city, and may not apply to every community in our jurisdiction. If your business or residence is already subject to this tax, you will continue to pay it as a VCE customer.

### ESP Customer Number

This is your Energy Service Provider (ESP) Customer number for VCE.

### Rate Schedule

This is your rate schedule determined by PG&E.

### Energy Surcharge

This fee is collected on behalf of the California Energy Commission and applies to all customers, regardless of service provider. The California legislature established the Energy Commission tax in 1975. The tax provides additional funding for the California Energy Commission.
